COMPANY PROFILE

Here at Hill Tree Care we have extensive experience in the arboriculture industry for a wide spectrum of customers.

Our expert climbers are fully qualified and specialise in all aspects of tree work from technical crane dismantling to ornamental pruning.

With our range of stump grinders, we can tackle any size of tree stump removal.

We carry out site clearance and de-vegetation, including steep slopes on road shoulders and railway embankments.

Our comprehensive service of site clearance, re-instatement works, soft landscaping and ground maintenance makes us the ideal 'one stop' company.

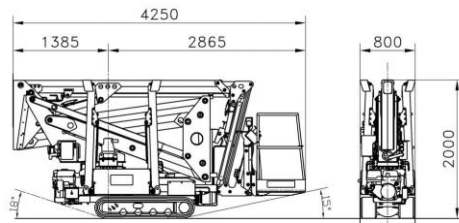

Based in the Midlands, we are ideally placed to cover much of the UK.

MEWP

CTE TRACCESS 170 17m Tracked Cherry Picker

- Small footprint for access through narrow openings.
